Pakistan

PROFESSIONAL SUMMARY

MERN Stack Developer with one year of experience as a full-stack software developer. Proficient in the complete development lifecycle utilizing MongoDB, Express.js, React.js, and Node.js. Skilled in microservices architecture, backend RESTful APIs, and responsive frontend UI development. Passionate about emerging technologies, continuous learning, and transitioning advanced concepts into scalable, real-world applications.

WORK EXPERIENCE

MERN Stack Developer AUG 2025 – Present
Tech Solution Pro, Islamabad, Pakistan

E-Commerce Website (Microservices Architecture, Currently Working)

- Developing a scalable microservices-based e-commerce system with modular services (user, product, order).
- Building a responsive frontend using React.js with modern UI practices.
- Designing RESTful APIs for product management, cart, and order processing.
- Implementing secure authentication and integrating third-party services (e.g., payments).

Call Center Lead Generation System

- Tech: Next.js, MongoDB, Third-Party APIs
- Developed a lead management system to collect, track, and manage customer data.
- Integrated third-party APIs for automated data fetching and lead enrichment.
- Built dynamic UI using Next.js for improved performance and SEO.

Coloring Book Platform

- Tech: React.js, Tailwind CSS, Redux Toolkit
- Built an interactive platform for users to explore and color digital artwork.
- Managed global state using Redux Toolkit for a smooth user experience.
- Designed a responsive UI using Tailwind CSS.
